### Fun Facts & Other Neat Stuff

Sterling will welcome you with a vast, never ending farmland in hues of gold. They say our prairie soil is some of the world's most fertile. We grow some good corn in abundance. Treat your palette at the \*popular food joint if any.\*

As you venture out you will be sure to see the Rock River, and our twin city Rock Falls, on the other side.

The city is home to the oldest-standing drive-in movie theater the 'Midway Drive In' in Illinois. The drive-in has been in operation since 1950. The theater plays classic animated "Dancing Hot Dog" short during intermission. To check out what's playing on the 90 feet outdoor screen, click here:
